**Environmentally
Certified Products**

Environmentally Certified Products

These symbols assure you that these products are not only safer to use, but deliver high quality results and have minimum environmental impact.

ECOLOGO® Product Certification is designed to support a continuing effort to improve and maintain environmental quality by reducing energy and materials consumption and by minimizing the impacts of pollution generated by the production, use and disposal of goods and services.

Certification under ECOLOGO demonstrate environmental leadership throughout their life-cycle and meet requirements for:

- Performance
- Limited toxicity for aquatic and other organisms
- Biodegradability and low potential for bioaccumulation
- Limits on ingredients that are considered likely to contribute to specific environmental impacts
- Limited waste and resource use

Green Seal® is a non-profit organization devoted to environmental standard setting, product certification, and public education. Green Seal's mission is to work towards environmental sustainability by identifying and promoting environmentally responsible products, purchasing, and production. Through its standard setting, certification and education programs, Green Seal:

The intent of Green Seal's environmental requirements is to reduce, to the extent technologically and economically feasible, the environmental impacts associated with the manufacture, use and disposal of products. Set on a category-by-category basis, Environmental Standards focus on significant opportunities to reduce a product's environmental impact.

Underwriters Laboratories is an industry-independent, non-profit organization that oversees **GREENGUARD**® Certification. Underwriters Laboratories is a global company with more than 120 years of expertise that established a true third-party product certification program based on proven emissions standards and to provide specifying and procurement professionals with a resource for low-emitting products.

The **GREENGUARD**® Children & Schools standard, which evaluates the sensitive nature of school populations combined with the unique building characteristics found in schools, and presents the most rigorous product emissions criteria to date. To date, more than 100 manufacturers across various industries offer **GREENGUARD** Indoor Air Quality Certified® Products.

The **BioPreferred**® Program was founded by the U.S. Department of Agriculture (USDA). The objective of the USDA and its program is to increase the purchase and use of products that come from plants, marine and forestry materials, and other renewable agricultural resources that meet these requirements:

- Formulas are derived in part from renewable agricultural resources
- Sourced materials come from farms and plantations
- Bio-based material replace petroleum based materials found in traditional cleaning products

Diversey believes that being environmentally responsible is critical for building a sustainable business and promoting human progress. In addition to our green certified products, Diversey offers a Healthy High Performance Cleaning program. Integral to our mission is to provide solutions for customers that help them become more sustainable. Our experience working through LEED projects within our own portfolio uniquely qualifies Diversey as an able partner.

Healthy High Performance Cleaning (HHPC) provides the pathway and best practices to clean and maintain sustainable buildings. As the only cleaning system certified for its impact on Indoor Air Quality by the GREENGUARD® Environmental Institute, it stands as a complete green cleaning program that helps meet requirements of LEED for Existing Buildings.

HHPC includes an assessment of your facilities and current operations. Combined with our portfolio of green cleaning products, tools, equipment, procedures, training, and written policies, Diversey can contribute toward earning one prerequisite and up to six points for LEED Building Operations and Maintenance Certification. Everything we do reflects our commitment to be a true environmental leader. It's not only the right thing to do - it's the right business thing to do for our customers.

HHPC
Healthy High Performance Cleaning

Diversey has been, and always will be, pioneers and facilitators for life. We constantly deliver revolutionary cleaning and hygiene technologies that provide total confidence to our customers across all of our global sectors. Led by Dr. Ilham Kadri, President & CEO, and headquartered in Charlotte, North Carolina, USA, Diversey employs approximately 9,000 people globally, generating net sales of approximately \$2.6 billion in 2016.
