## Brooms

Diversey Brooms can be used indoors and outdoors and are fully colour coded for segregation and HACCP.

- **Hard stiff bristles:** The sweeping broom with hard stiff bristles is used to clean areas with large, heavy, dry and wet debris and is the perfect choice for outdoor cleaning.
- **Medium stiff bristles:** Brooms with medium bristles can be used wet and dry for sweeping medium sized debris and are recommended for use indoors on all type of surfaces.
- **Soft bristles:** Soft bristles are the perfect choice to remove fine dirt and dust and recommended to be used dry.

**Scrubbers and Scrub Brushes Hi-Low**

Diversey scrubbers can be used for wet cleaning on hard floors. They are fully colour coded for segregation and HACCP.

- **Large scrubbers:** Recommended for cleaning and scrubbing of large, open and easy to reach heavily soiled areas. The hard bristles facilitate the removing of caked-on dirt in an effective way.
- **Small scrubbers:** Perfect for cleaning and scrubbing in congested and difficult to reach areas where scrubbing is required.
- **Hi-Low Scrubbers:** This scrubber with an angled shape has been specially designed for optimal cleaning of areas where the wall meets the floor. It can be used on the floor, around legs of equipment and on the equipment itself as well.

**Tank Brushes**

Diversey Tank Brushes can be used for wet cleaning of equipment and machinery. They are fully color coded for segregation and HACCP.

- **Tank brushes:** Recommended for cleaning and scrubbing inside production machines and tanks, to clean open and easy to reach heavily soiled areas. The hard bristles facilitate the removing of caked-on dirt in an effective way.

## Squeegees and Replacement Rubbers

Diversey squeegees are solid and long-lasting and can be used for different cleaning tasks. Once the rubber is worn out it is easily replaced.

- **Floor Squeegee:** Hygienic squeegees for standard tasks can be used on all types of floors. They are colour coded for segregation and HACCP.
- **Floor Squeegee Swivel:** The food approved squeegee is white and available in 3 sizes. The double-blade, non-porous rubber design of this squeegee is effective in removing water and therefore recommended for areas where hygiene and effective removal of water are required. The revolving neck is useful for small or cluttered production areas. It reaches comfortably underneath low lying equipment. They can be used for all types of surfaces (tiles, epoxy and cement).
- **Squeegee Rubbers:** Different sizes, replaceable, food approved rubbers are also colour coded for segregation and HACCP.
