Hand and Knob Brushes

Diversey Hand Brushes are multi-purpose and can be used for several areas. They are fully colour coded for segregation and HACCP.

Hand Scrub Brush Hard

An effective stiff-bristled brush for general purpose and scrubbing. Ideal for conveyor belts, food containers, buckets, large scaled bowls and various other equipment.

Knob Brush

The knob brush is excellent for cleaning pots and pans and for inside cleaning of machines. Because of the grip shape and the angled bristles it's convenient to reach into the corners of equipment. The raised grip also makes sure that the operators' hands and knuckles do not touch surfaces and chemicals.
