

# Professional Hygienic Cleaning Tools

## Handles

Diversey's range of professional, ergonomically designed handles, are suitable for all cleaning needs where a level of hygiene is required. They are designed to achieve the highest efficiency and meet particular food hygiene requirements. Full colour coding is also available. The handles improve the working position for the user with a comfortable grip, rounded top and hanger

### Hygienic

- Made out of highest quality raw materials
- Colour coded
- Autoclavable

### Effective

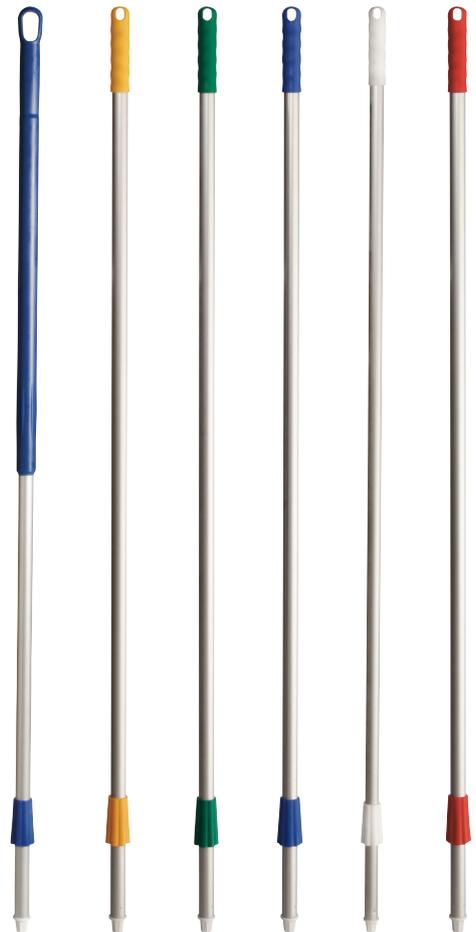

- Works highly effective in combination with scrubbers/squeegees/ brooms in wet areas
- Robust and long lasting
- Unique connector between scrubber and handle for an improved strong connection

### Versatile

Different sizes are available to provide best ergonomic handling.

### Designed For

- Food & beverage production facilities
- Kitchens & restaurants
- Contract catering
- Retail
- Education & government
- Healthcare
- Building service contractors
- Hospitality
- Contract catering

# Professional Hygienic Cleaning Tools

Diversey's handles can be used for different tasks and can be combined with brooms, scrubbers and squeegees.

## Fibre Glass Handle

Recommended for using in areas where a high concentration of caustic cleaning solution is used. Available in 1 colour only.

## Aluminium Handles

These handles have a comfortable grip and are ergonomically designed to improve the working position of the user. Can be used for any task requiring a shorter handle such as cleaning conveyor belts, tables and small vats. Colour coded for segregation and HACCP.

## Aluminium Handles Premium

Ergonomically designed, premium handle for tasks which require a longer handle. Colour coded for segregation and HACCP.

## Telescopic Handles

Universal handle, which can be adjusted to the height of the user of the handle. It improves the working position of the user and reduces the risk of back problems. Because of the extension feature, enables the operator to reach even the hardest to access places. Colour coded for segregation and HACCP.
