Waterless Urinal Program

An Innovative Solution For Restroom Odor Control & Reducing Water Consumption

An innovative solution for restroom odor control & reducing water consumption

Stop Flushing Money Down The Drain

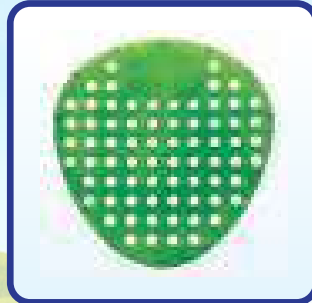

Diversey, now offers a comprehensive program to eliminate restroom odors and deliver significant water savings without the costly installation of traditional waterless urinals.

With our innovative waterless urinal program, there is no need for regular urinal flushing. Our TASKI Fresh and Clean Urinal Screens are impregnated with polymerized fragrances while the Good Sense Odor Eliminator is based on our patented bacteria based technology ensuring superior results.

Installation is hassle-free and maintenance is simple, making the switch to waterless urinals easy and thus saving more than 60% water.

With our Waterless Urinal Program, a single urinal can save a staggering 2,00,000 litres of water a year.*

* (Assuming an average usage of 25 flushes per day per urinal & a minimum of 2 litres of water per flush)

TASKI® Fresh and Clean Urinal Screen

- TASKI® Fresh and Clean Urinal Screen provides a controlled and consistent fragrance release lasting up to 30 days.
- It utilizes proprietary polymerized fragrances and a polymer based delivery system. The fragrances can neutralize odors, negating the use of an external fragrance system.
- This economical urinal screen can withstand chemical treatments, unlike other urinal screens.
- Urinal screens are made with recyclable EVA polymer, and hence safe to use and dispose.

Good Sense® Odor Eliminator

- Good Sense® Odor Eliminator utilizes non-pathogenic bacteria and the enzymes they produce, to help remove foul odors caused by urine, faeces, blood, vomit, food spills, garbage and grease.
- Helps remove odors from drains, in addition to preventing clogging of drains.
- Can be used on all washable surfaces.

Simple to use

INITIAL TREATMENT FOR WATERLESS PROGRAM

1 Clean the urinal pipe with (Suma Descaler) Follow the standard operating procedure.

2 Spray Good Sense Odor Eliminator on urinal bowl.

3 Allow the chemical to work for 15 mins.

4 Rinse thoroughly with water and allow it to air dry.

REGULAR TREATMENT FOR WATERLESS PROGRAM

1 Disconnect the water supply to the urinal bowl.

2 Place TASKI Fresh & Clean Urinal Screen on the urinal bowl.

3 Do not flush after every use.

4 Spray Good Sense Odor Eliminator on urinal bowl every 2 to 4 hours depending on traffic.

5 At the end of the day rinse out waste collected in the urinal using water.

6 Replace the urinal screen after 3-4 weeks, or when you get malodor in the washroom, whichever is earlier.
