

Divermite

Your complete solution for housekeeping

With the **Divermite** system from Diversey, you can be assured of accurate cleaning chemical dosing. The system is easy to use and delivers maximum efficiency and cleaning performance, resulting in reducing storage space overhead and increased efficiency for you

Divermite requires no plumbing or electrical connection

- Fits the system in a location that suits you.
- Suitable for filling Spray bottles, Wringer Bucket, and Scrubbing machine

Accurate dosing with maximum efficiency

- Ensures accurate dosing for controlled cost and maximum efficiency (A 1.5L pocket can create 250 litres of ready to use solution)
- Controlled and accurate dosing delivers optimum cleaning performance

Maximize safety

- Minimal risk of skin contact while refilling the highly concentrated products
- Due to its built-in blocked system overdosing is not possible

Minimize training

- Its design reduces staff training to a minimum as it is extremely easy-to-use - simple & logical
- Dosing equipment is colour-coded for easy staff identification

Reduce the environmental impact

- Reduced amount of chemical release to the environment by up to 68 % compared to manually diluted products
- 80 % reduction in plastic waste is achieved compared to traditional packaging
