DENTIST

When to wipe

Consulting room

Before and after each patient: dentist chair and nearby surfaces like cabinets, handles, lamps

Don't forget to wipe computer screens, keyboards

Frequently wipe surfaces of medical equipment

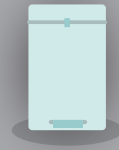

Clean sink and hand hygiene dispensers often

Waiting room

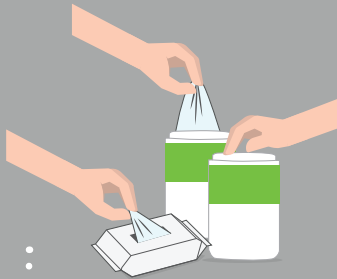

Frequently wipe chairs, door handles, computer screen, keyboards, hard surface areas

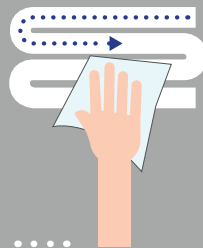

Wipe waste bins and water dispenser often

How to wipe

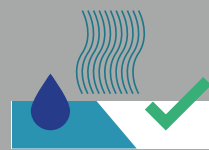

Take a wipe from the dispenser and close the pack firmly to prevent remaining wipes from drying out

Holding the wipe flat in your hand (not scrunched), wipe the surface in an 'S' shape, moving from clean to dirty. Do not go over the same surface twice with the same wipe

Dispose of used wipes in the appropriate waste bin following local policy guidelines. Save your pipes, don't flush wipes.

Allow surface to dry before use

THINK Every frequently touched surface needs to be wiped
