

Neutrapur Conc

60C1

Alkalinity neutralizer

Description

Clax Neutrapur Conc is a liquid alkalinity neutralizer, based on inorganic acids that helps prevent yellowing of garments

Benefits

- Effective neutralization of residual alkalinity in the water of the last rinse and in the garments
- Excellent biodegradability
- Prevents yellowing of clothes

Directions for use

Use Clax Neutrapur Conc at concentrations between 0.5-1.5ml/kg dry goods depending on the type and degree of soiling and wash classification.

The use of this product is advised in the neutralization stage of the washing process.
