

CLAX **Sonril Ultra**

40B1

Bleach – high temp - oxygen

Description

Clax Sonril Ultra is a concentrated liquid laundry destainer specially formulated for use in commercial, healthcare and on premise laundries. The product can be used for all types of fabric (except nylon) and should be applied in the main wash at temperatures between 70°C and 90°C.

Key Properties

Clax Sonril Ultra is a well-stabilised and effective concentrated high temperature bleach system based on hydrogen peroxide. It is a very thin liquid, which makes it easily pumpable, ensuring optimal delivery in the wash solution. This product can be applied on all types of fabric (except nylon), including coloured articles, at 70°C - 90°C.

When used according to user instructions, Clax Sonril Ultra causes minimal fabric damage and colour fading. Please note that bloodstains will set when in contact with peroxide and as a result, will be hard to remove. Therefore it is strongly advised to avoid any contact with peroxide bleach during the initial phase of the wash (t= 0-7 minutes). It is recommended to treat fabric with bloodstains with an enzymatic product in the pre-wash. For further information on use please refer to 'Directions for use'.

Benefits

- Excellent destainer for all types of fabric, including colour
- Easy to dose
- Results in minimal fabric damage when used according to user instructions

Directions for use

Use Clax Sonril Ultra at concentrations between 1-3ml/kg dry goods depending on the type and degree of soiling and wash classification.

Please note the following:

- Clax Sonril Ultra is most effective at temperatures > 80°C
- Control proper pH to achieve the best wash performance
- Do not use Clax Sonril Ultra for cleaning nylon (polyamide; eg HTN dustmats)

Technical data

Appearance : Colourless, clear liquid
pH (neat): 2.0
Relative density at 20°C: 1.2

The above data is typical of normal production and should not be taken as a specification.

Safe handling and storage information

Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet. sds.diversey.com. Store in original closed containers or (where applicable) in an approved bulk tank, away from sunlight and extreme of temperature.
