

Bac conc

D10 conc

Highly concentrated detergent disinfectant

Description

Suma Bac conc D10 conc is a highly concentrated detergent disinfectant for one step cleaning and disinfection of all surfaces in food premises.

Key properties

Suma Bac conc D10 is a liquid detergent disinfectant, which cleans and disinfects all surfaces in one step. The product is suitable for all surfaces in food premises. The combination of cationic, sequestrant and a buffer system makes this product very effective against a wide range of micro-organisms, in all water conditions. The formulation also contains surfactants, which makes the product suitable for one step cleaning and disinfection.

Suma Bac conc D10 is economical in use by the controlled dosing mechanism of the Diversey Divermite dispenser or DQFM.

Benefits

- Reduces waste, needs less storage capacity and gives excellent economy in use due to highly concentrated formulation
- Can be used to clean and to disinfect in one step, when used as directed
- Cuts through grease and dried-on food soiling
- Effective against a wide spectrum of micro-organisms, helping to improve hygiene security
- Effective in all water conditions

Directions for use

Suma Bac conc D10 conc is supplied in flexible 1.5 L plastic pouches designed to fit into the Diversey Divermite Dispenser or DQFM. Use Suma Bac conc D10 conc at concentrations between 0.25-1.33% v/v depending on the type and degree of soiling and application requirement.

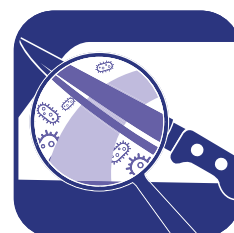

At the dilution of 0.25% product generate more than 200ppm of QAC.

Spray cleaning and disinfectant:

1. Remove gross soiling
 2. Spray onto surfaces
 3. Leave for at least 5 minutes
 4. Rinse food contact surfaces thoroughly with clean water and allow to air dry
- A made up spray bottle of product will be active for up to seven days.
Rinse and dry bottle before refilling.

General cleaning/disinfection:

1. Remove gross soiling
2. Use cloth or brush to clean surfaces
3. Leave for at least 5 minutes
4. Rinse food contact surfaces thoroughly with clean water and allow to air dry

Bac conc

D10 conc

For non food contact surfaces:

1. Remove gross soiling
2. Spray solution onto microfibre cloth
3. Wipe surfaces and allow to air dry.

For heavily soiled items, pre-clean surfaces using Suma Bac conc D10.

Technical data

Appearance:	clear purple liquid
pH neat:	11.0
pH 1% solution:	10.5
Relative density (20°C):	1.03

These figures are typical values and should not be taken as specifications.

Safe handling and storage information

Full guidance on the handling and disposal of this product is provided in a separate Material Safety Data Sheet. Store in original container. Avoid extremes of temperature.

Product compatibility

Under recommended conditions of use, Suma Bac conc D10 conc is suitable for use on all materials commonly encountered in the kitchen.

Microbiological data

Suma Bac conc D10 conc passed EN 1276 at a dilution of 0,75 % in hard water (300ppm as CaCO₃) and in dirty conditions (0.3% bovine albumin) at a contact time of 5 minutes. For more details on the microbiological data please contact Diversey.
