

Carbon Remover

K21+

Liquid specialty presoaker

Description

Suma Carbon Remover K21+ is a liquid presoaker specially formulated to provide excellent removal of grease, carbon and food residues from baking trays, pots and pans.

Key properties

Suma Carbon Remover K21+ is an alkaline liquid, which is suitable for soaking heavily soiled kitchen utensils and equipment. It contains a blend of alkali and sequestrant for effective removal of grease, carbon and other food residues. Recommended to be used with the soak tank as part of Diversey 'DiveEasy' soak cleaning system.

Benefits

- Softens and lifts grease and baked-on food soils without scrubbing
- Regular use removes soil before it can accumulate and turn into carbon build-up
- Cleans effectively broiler parts, oven racks, fry baskets, filters and much more
- Use solution is not classified
- Safe for most metals including aluminium
- Hot water is not required
- Can be used 24 hours a day, 7 days a week for up to 4 weeks

Directions for use

Use Suma Carbon Remover K21+ at concentrations between 7-20% v/v depending on the type and degree of soiling and application requirement.

1. Fill the soak tank with water to fill line.
(Important: if not using the recommended Soak Tank use an appropriate container made of high density PE or PP).
2. Add Suma Carbon Remover K21+ to the water in the tank.
3. Pre rinse pots/pans/utensils/equipment with hot water and immerse fully in the soak solution. Let soak.
4. Remove items from soak tank, wash and rinse in dishwasher or manually.

IMPORTANT: Solution should be changed at least once a month, but frequent use or use with heavy soiling may make it necessary to change more often.

Carbon Remover

K21+

Technical data

Appearance	Clear liquid
pH (1% solution)	12.0
Relative density (20°C)	1.10

The above data is typical of normal production and should not be taken as a specification.

Safe handling and storage information

Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet, as available from your supplier. Store in original container. Avoid extremes of temperature and humidity.

Product compatibility

Under recommended conditions of use, Suma Carbon Remover K21+ is suitable for use on most materials used in the kitchen, including aluminium.
