

Dis

D4

Rinse free surface disinfectant

Description

Suma Dis D4 is a concentrated rinse-free disinfectant for use on all hard surfaces including food contact surfaces.

Key properties

Suma Dis D4 is concentrated liquid disinfectant formulated for use on all hard surfaces including food contact surfaces. The product is QAC based, which makes it very effective as disinfectant against a wide range of micro-organisms, in all water conditions.

Benefits

- Effective against a wide spectrum of micro-organisms, helping to improve hygiene security
- Safe for use on all surfaces, including aluminium
- Rinse free disinfection and low contact time

Directions for use

Use Suma Dis D4 at concentrations between 0.4-1% v/v (200-400ppm of QAC) depending on the type and degree of soiling and application requirement.

Disinfection process

1. Apply diluted product onto the clean surface.
2. Ensure product come in contact for at least 1 minute with all the surface area to be disinfected.
3. Allow to air dry if dilution is 0.4 %
4. For direct food contact surfaces disinfectant, rinsing is required if concentration increase more than 0.4 %.

Note: Rinsing is not necessary unless required by specific country regulation.

Technical data

Appearance	Clear colorless liquid.
pH neat	6.3
pH 1 % solution	6.3 - 8.3
Relative density	1.0

These figures are typical values and should not be interpreted as specifications.

Safe handling and storage information

Full guidance on the handling and disposal of this product is provided in a separate Material Safety Data Sheet. Store in original container. Avoid extremes of temperature.

Product compatibility

Under recommended conditions of use, Suma Dis D4 is suitable for use on all materials commonly encountered in the kitchen.
