

Aluminum safe, heavy duty degreaser

Description

Suma Extend D3 is a ready to use liquid degreaser for the removal of fat, carbon and oil from kitchen equipment such as ovens, grills, cooker hoods, bratt pans and interiors of dishwashing machines.

Key properties

Suma Extend D3 is an alkaline liquid detergent suitable for manual cleaning of all heavily soiled surfaces in the kitchen, like cooker hoods and cooker tops. The product is suitable for removal of all kind of grease and dried-on food. The formulation is balanced in such a way that product is safe for use on aluminum surfaces.

Benefits

- Fast acting and very effective on greasy surfaces.
- Increased performance as it sprays through convenient foam trigger and clings to vertical surfaces.
- Safe for use on aluminum.

Use instructions

Suma Extend D3 is used neat via an effective foam trigger spray.

General degreasing of cooker tops and ovens:

1. Ensure that the surface temperature is lower than 70°C.
2. Spray the product on the surface with the foam trigger.
3. Leave for 10-30 minutes depending on soiling.
4. Remove loose deposits with scourer.
5. Rinse with clean water and allow to air dry.

Canopies, hoods and filters:

1. Clear area of food and protect food contact surfaces.
2. Spray directly on to surface.
3. Leave for 10-30 minutes depending on soiling.
4. Remove loose deposits with scourer. Pay attention to internal drain channels.
5. Rinse with clean water and allow to air dry.
6. Do not attempt to wash filters with fabric or felt inserts.

Boiling vessels and bratt pans:

1. Isolate gas / electric supply.
2. Drain and remove any contents.
3. Spray directly on to surface.
4. Leave for 10-30 minutes depending on soiling.
5. Scrub / scour internal surfaces clean.
6. Rinse with clean water, drain and allow to air dry.
