

TASKI® Tapi Shampoo

C2c

Carpet Shampoo

Description

Concentrated carpet shampoo for the intermediate cleaning of all types of carpet and upholstery. Incorporates O.N.T. odor neutralising technology for effective malodour neutralisation and long lasting fragrance.

Key properties

- Special combination of effective high foaming surfactants
- Residues are easily removed by vacuuming
- pH neutral, endorsed by the WoolSafe Institute
- Suitable for any carpet shampoo methods (dry and wet shampoo) and for the encapsulation method
- Incorporates O.N.T. odor neutralising technology
- Efficiently deactivated house dust mite allergens

Benefits

- Excellent cleaning performance
- Reduces re-soiling of the carpet
- Safe to use on any carpet types including wool
- Can be used for dry and wet shampooing as well as for the carpet pad method
- Versatility: one product for all intermediate cleaning, including the encapsulation cleaning method
- Neutralises malodour molecules enhancing the perfume effect
- Tested by independent laboratories for allergen reduction and for AirPlane cleaning.

Directions for use

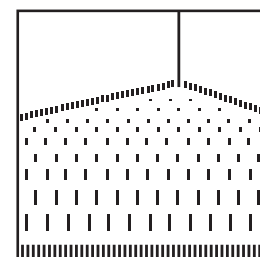

Use TASKI Tapi Shampoo at concentrations between 2-8% v/v depending on the type and degree of soiling and application requirement.

TASKI Tapi Shampoo needs to be diluted. For detailed information regarding the dosing, please refer to the technical data table. Proper dosage saves costs and minimises environmental impact.

Application

Manual

Dry foam method: Using a TASKI swift 35 or a single disc machine with foam generator and dry foam shampoo brush, dose the product into the full water tank. Adjust foam generator to produce the foam in required dryness and shampoo the carpet. Lift the carpet pile with a carpet brush while still damp to accelerate drying. Allow the treated carpet to dry, then thoroughly brush vacuum to remove the crystallised shampoo residues. Shampoo upholstery with the hand brush, allow to dry and thoroughly vacuum.

TASKI®

TASKI® Tapi Shampoo

C2c

Wet shampooing: Using a single disc machine, tank and wet shampoo brush, release product directly on the floor and shampoo the carpet immediately. Lift the carpet pile with a carpet brush while still damp to accelerate drying. Allow the treated carpet to dry, then thoroughly brush vacuum to remove the crystallised shampoo residues. Shampoo upholstery with the hand brush, allow to dry and thoroughly vacuum.

Encapsulation method: Dilute the product with water in the encapsulation cleaner. Press the proper Encapsulation settings on the machine to begin the encapsulation procedure. Immediately begin to walk backwards at a slow walking speed, moving the machine over the carpet (please refer to the machine instructions of use). Overlap slightly with each pass. Allow carpet to dry, then vacuum (vacuuming can be performed the following day if necessary).

Carpet pad method: Using a single disc machine and a carpet pad, spray product sparingly onto the carpet and the carpet pad. Work all areas systematically in overlapping passes. Change or turn carpet pad when saturated with dirt.

This product is also suitable for the Bonnet method.

Technical data

Platform	SKU	Description/Pack size	Machine	Appearance	pH value neat	pH value in-use	Relative density (20°C)
Standard concentrate	7513212	TASKI Tapi Shampoo 2 x 5 L	Shampoo machine : 2-3% (200-300ml/10L) Max 10% 2% (Carpet pad method) Encapsulation machine: 5-8% (500-800ml/10L)	Clear, colourless	≈ 6	≈ 7	1.03 g / cm ³

The above data is typical of production and should not be taken as specification.

Safe handling and storage information

Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet (SDS). <https://sds.sealedair.com/> Only for professional users/specialists. Store in original closed containers away from extremes of temperature.

Product compatibility

Important: Test colour fastness and material compatibility in an inconspicuous place before use. Do not refurnish until the carpet is completely dry. Protect furniture feet with plastic or aluminium foil to prevent rust or varnish/finish damage.

Environmental information

The surfactants used in this product are biodegradable in compliance with the requirements of EC Directives 73/404/EEC and 73/405/EEC and their subsequent amendments.

Approval

Endorsed by the WoolSafe Institute. The product shows a reductive effect on the allergen (mite and cat) levels of soiled carpets - Established by the BMA Laboratory for Biological Medical Analysis, Bochum, Germany.

TASKI Tapi Shampoo is suitable for Aircraft cleanings; tested and approved by the SMI Inc. Miami-Florida- USA with the N° 1711-316 according the AMS 1631C, Cleaner, Carpet Water Extraction Type.
