FOR PEOPLE
AND SURFACES

**ELIMINATES
VIRUSES**
BACTERIAS YEASTS

Oxivir is the only cleaner and disinfectant to kill Coronavirus and all other viruses in just 30 seconds*.

Oxivir protects your students, staff and reputation in the most efficient, safe and sustainable way.

* According to EN 14476

OxivirTM
powered by **AHP**[®]

Oxivir Combined Cleaner & Disinfectant, powered by AHP Technology, provides you with the best alternative to your traditional disinfectants by delivering a **full virucidal efficacy in just 30 seconds**, while being very gentle to surfaces and with the lowest risk to your staff and students. The active ingredient, **hydrogen peroxide, breaks down into environmentally-friendly water and oxygen** just minutes after use leaving no residues that might be harmful or change the appearance of the surface.

HOW DOES IT WORK?

AHP (Accelerated Hydrogen Peroxide) is a patented, synergistic blend of commonly used, safe ingredients that when combined with low levels of hydrogen peroxide dramatically **increases its germicidal efficacy and cleaning performance**.

KEY BENEFITS

EFFICACY

Full virucidal efficacy in just 30 sec. (Coronavirus)
Fastest kill claims for a **broad spectrum of viruses, bacteria and yeast**

SAFETY

Safety to users, no need of PPE
Highly compatible with surfaces, non flammable
Oxivir Excel Wipes reduce aerosols completely and will increase disinfection compliance by 35%*

EFFICIENCY

All-in-one cleaner & disinfectant product improving labour efficiency
Oxivir Excel Wipes will increase your efficiency up to 23%*
Easy to use with minimal training needed
High-performance surfactant system that delivers superior cleaning results versus many other disinfectant technologies

SUSTAINABILITY

The actives break down into water and oxygen which is far **safer both for the environment and people**
Oxivir products are free from Alkylphenol Ethoxylates (APEs), Nonylphenol Ethoxylates (NPEs), Volatile Organic Compounds (VOCs)

PROTECTED SCHOOL

ESTABLISHMENTS STAY OPEN WITH OXIVIR

Did you know that the top concern for parents and carers is that their childrens school remains open? Research** shows that more than half are worried their children might fall behind academically.

By using Oxivir, you can be confident of delivering a safer environment for children at school.

Oxivir products can mitigate the spread of infections quickly and effectively. **In just 30 seconds** you can be reassured the surface is clean and free from viruses, giving parents and carers the ultimate feeling of safeguarding their children.

*Oxivir can be safely used and it is compatible with:stainless steel, chrome, vinyl, nylon fabrics, laminated surfaces, glass, rubber, hard and flexible plastics (polypropylene, polyurethane, polyethylene, PVC acrylic, fiberglass and polycarbonate).

THE MOST SUSTAINABLE CHOICE ALL THAT'S LEFT IS WATER AND OXYGEN

Education is the future of every country and is always under the spotlight. So is the environment.

Oxivir products contain AHP, an active ingredient of hydrogen peroxide. Hydrogen peroxide is 100% biodegradable breaking down into the basic components of water and oxygen. This means minimal to no environmental impact.

Additionally, Oxivir products are free from Alkylphenol Ethoxylates (APEs), Nonylphenol Ethoxylates (NPEs), Volatile Organic Compounds (VOCs) so optimal indoor air quality is ensured.

NO RESIDUES, NO RISK PROVEN PROTECTION FOR EVERYONE

It's no doubt that the COVID-19 pandemic has put **cleaning and disinfection under the spotlight**: research* shows 94% of parents and carers expect every school to adapt their cleaning and disinfection protocols to increase protection for children whilst ensuring the level of risk is not increased. **Oxivir products** are highly effective against key pathogens and are **formulated with the convenience, safety, and well-being of people** and surfaces in mind.

The Hazard Materials Identification System (HMIS) is a numerical rating that measures the health hazard, flammability and physical hazards of substances.

Oxivir Disinfectant Cleaners, at use dilutions, are rated at **the lowest possible toxicity levels 0 - 0 - 0**.

HEALTH	0
FLAMMABILITY	0
PHYSICAL HAZARD	0

- ▶ No significant risk to health
- ▶ Materials that will not burn
- ▶ Materials that are normally stable, even under fire conditions and will **NOT** react with water, polymerize, decompose, condense or self-react. **Non-Explosives**.

Oxivir cleaner disinfectants come in various formats suitable for cleaning and disinfecting any surface in just 30 seconds*

* According to EN 14476

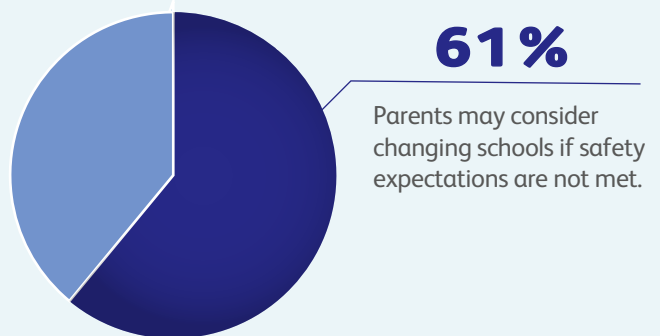

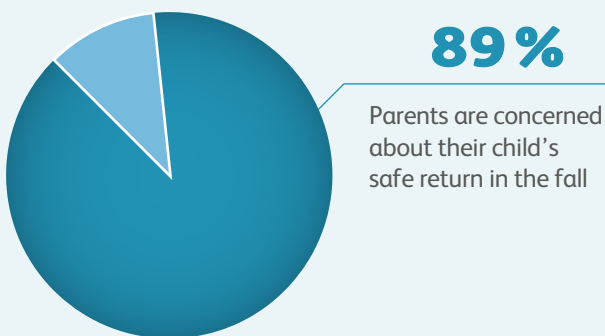

BEST IN CLASS INFECTION PREVENTION WITH OXIVIR

Every year millions of school days are lost due to colds and the flu. Germs and viruses spread easily in high traffic areas and there is nothing we can do to stop them. But **there is something we can do to limit the spread and make sure children are safe at school.** Oxivir products are the best when it comes to infection prevention thanks to their broad spectrum and **2-in-1 cleaning and disinfecting effectiveness.** You can rely on AHPs unique technology to reduce the risk of contaminated surfaces and hence containing the spread of infections.

Student safety is a real concern
