

Oxivir is the only cleaner and disinfectant to kill Coronavirus and all other viruses in just 30 seconds*.

Oxivir protects your customers, staff and brand in the most efficient, safe and sustainable way.

Oxivir Combined Cleaner & Disinfectant, powered by AHP Technology, provides you with the best alternative to your traditional disinfectants by delivering a **full virucidal efficacy in just 30 seconds,** while being very gentle to surfaces and with the lowest risk to your staff and customers. The active ingredient, **hydrogen peroxide, breaks down into environmentally-friendly water and oxygen** just minutes after use leaving no residues that might be harmful or change the appearance of the surface.

HOW DOES IT WORK?

AHP (Accelerated Hydrogen Peroxide) is a patented, synergistic blend of commonly used, safe ingredients that when combined with low levels of hydrogen peroxide dramatically **increases its germicidal efficacy and cleaning performance.**

KEY BENEFITS

EFFICACY

Full virucidal efficacy in just 30 sec. (Coronavirus)
Fastest kill claims for a **broad spectrum of viruses**, **bacteria and yeast**

SAFETY

Safety to users, no need of PPE
Highly compatible with surfaces, non flammable
Oxivir Excel Wipes reduce aerosols completely and will increase disinfection compliance by 35 %*

EFFICIENCY

All-in-one cleaner & disinfectant product improving labour efficiency Oxivir Excel Wipes will increase your efficiency up to 23 % *

Easy to use with minimal training needed

High-performance surfactant system that delivers superior cleaning results versus many other disinfectant technologies

SUSTAINABILITY

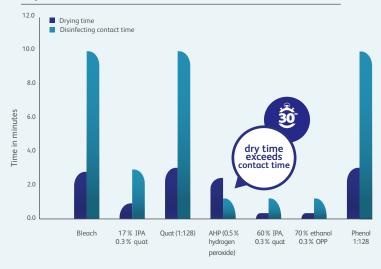

The actives break down into water and oxygen which is far **safer both for the environment and people Oxivir** products are free from Alkylphenol Ethoxylates (APEs), Nonylphenol Ethoxylates (NPEs), Volatile Organic Compounds (VOCs)

Using cleaning and disinfection products correctly and safely can be challenging. Not only are **Oxivir** products tough on key pathogens, they are also **the safest choice for your employees and customers.** They can be safely used without personal protective equipment as they are **non-corrosive** and **non-irritating** to skin and eyes at the correct dilution. **Oxivir** products are free from VOCs, added fragrances, strong chemical odours and fumes. What's more, they do not bind with cleaning tool fabrics such as cotton or microfibre (as Quats do) so there is no risk of reduced efficacy.

The Hazard Materials Identification System (HMIS) is a numerical rating that measures the health hazard, flammability and physical hazards of substances.

Oxivir Disinfectant Cleaners, at use dilutions, are rated at the lowest possible toxicity levels 0 - 0 - 0.

Oxivir can be safely used and it **is compatible with:** stainless steel, chrome, vinyl, nylon fabrics, laminated surfaces, glass, rubber, hard and flexible plastics (polypropylene, polyurethane, polyethylene, PVC acrylic, fiberglass and polycarbonate)

Diversey has been, and always will be, a pioneer and facilitator for life. We constantly deliver revolutionary cleaning and hygiene technologies that provide total confidence to our customers across all of our global sectors. Diversey is headquartered in Fort Mill, SC, USA.
