

Soft Care® Plus

H41

Anti-bacterial hand wash

Description

Soft Care® Plus H41 is a gentle anti-bacterial hand wash. This product does not contain perfume, making it suitable for application in the food service area.

Features

- It takes care of hands through its unique blend of surfactants and humectants.
- It contains lactic acid a naturally derived anti-bacterial agent, ensuring hands become hygienically clean whilst avoiding excessive degreasing and subsequent cracking and dryness.
- Its appearance has proven to appeal to users, encouraging customers and staff to wash their hands whenever it is required.
- It does not contain perfume, eliminating the risk of tainting foods and making it suitable for use in food service areas.
- Free of triclosan, parabens and polyhexamethylene biguanide hydrochloride (PHMB).
- Dermatologically tested*.
- Kills 99.999% of germs**.

Benefits

- Contains lactic acid to ensure hands become hygienically clean after use.
- Mild on hands; can be used for frequent hand washing.
- Excellent cleaning performance.
- Perfume free (suitable for food service areas).
- Excellent skin compatibility, Non irritant to hands and reduced risk of allergic reactions.
- Easy to rinse and readily biodegradable as per Australian Standard 4351.

Application areas

- Food Service
- Retail
- Education
- Government
- Healthcare
- Institutional Facilities

Soft Care® Plus

H41

Anti-bacterial hand wash

Use instructions

1. Wet hands with lukewarm water and apply one or two doses of product from dispenser.
2. Rub to form a rich lather and wash for at least 60 seconds.
3. Rinse well with water, dry hands thoroughly. Dry hands are crucial for maintaining good hand hygiene and for keeping skin in a good, healthy condition.
