

# TASKI® swingo 5000

## Large ride-on automatic scrubber drier

### Key features

- Unmatched productivity
- Powerful cleaning and drying results
- Total reliability
- Intelligence

### Unmatched productivity

The patented IntelliFlow system ensures always the right amount of cleaning solution on the floor and leads to significant water savings. These, in combination with the large 200 L tank and a high cleaning speed of 7.5 km/h radically increase productivity and reduce the number of time-consuming tank filling stops. The unique all wheel steering makes the machine very agile to easy manoeuvre in congested areas.

### Powerful cleaning and drying results

The patented W-shaped squeegee follows the floor profile and allows perfect water pick-up even in curves, while turning and on uneven or structured floors. Special squeegee blades and a direct suction line allow pick-up of small debris without clogging. This results in both exceptional cleaning and immediate drying results, and hence a consistently high and improved floor appearance.

### Total reliability

Engineered for durability and hard cleaning tasks, the TASKI swingo 5000 is constructed with high tech material and long life components that increase machine uptime and reduce repair cost. All components which need frequent maintenance are colour coded in yellow and can be removed easily without tools. These features allow trouble-free operation with a minimum of operator training needed and enhance machine's uptime.

### Intelligence

The superior ergonomic design ensures operatives can work in a safe and comfortable position. Good visibility and self adjusting squeegee ensures 'clean to edge' performance. Low noise levels can be lowered further by using the ECO mode, ideal for daytime cleaning.

# TASKI® swingo 5000

Description			
Theoretical performance	7875 m <sup>2</sup> /h	Turning circle	200 cm
Working width	105 cm	Ramp with full tank w/o cleaning	15%
Squeegee width	129 cm	Brush system	4 x 28 cm
Solution tank – flex tank (nominal)	200 L	Brush pressure min./max.	60-90 kg
Recovery tank – ex tank (nominal)	210 L	Cleaning speed/Transportation speed	7.5 km/h / 8.0 km/h
Rated voltage	24 V	Sound level	67 dB(A)
Battery capacity	240-360vAh/C5	Electrical protection class	III
Battery autonomy (nominal)	4.5-6.5 h	Splash water protection class	IPX3
Machine weight ready for use w/240Ah batteries, 75 kg driver	790 kg	Approvals	CE/CB test certificate
Dimensions (L x W x H) (height above driver's seat)	178 x 109 x 140 cm
