

TASKI® swingo XP-M IntelliSweep™

A major break through in cleaning productivity and efficiency. A machine which sweeps as it scrubs

TASKI swingo XP-M IntelliSweep™

The TASKI XP-M IntelliSweep™ represents a step change for scrubber driers. The new concept with the TASKI patented IntelliSweep™ pre-sweeping unit streamlines two processes into one. The new integrated pre-sweeping unit collects small and large debris and makes the separate pre-sweeping task obsolete.

TASKI XP-M IntelliSweep™ brings you:

- Up to 30% increase in productivity with a 2-1 process
- Huge productivity without compromising results
- Ultra compact & agile for challenging environments
- Perfect for any environment where pre-sweeping is critical

Increased productivity with 2-1 process

The XP-M IntelliSweep™ combines the two separate tasks of pre-sweeping of debris with scrubbing and drying of hard floors. The patented IntelliSweep™ process design offers a huge 30% increase in productivity. The smart design makes the machine very flexible even in congested areas.

Highest cleaning results with an Intelligent touch

The scrubbing unit with micro-oscillation can save up to 50% of the cleaning solution versus traditional rotary or cylindrical brush systems. In combination with the full TASKI Intelligence Systems includes IntelliFlow, IntelliDose and IntelliTrail the TASKI XP-M IntelliSweep™ is the unrivalled leader helping to reduce your total cost of ownership.

Ultra compact and agile without any compromise

The TASKI XP-M IntelliSweep™ is an ultra-compact, agile, comfortable and stable stand-on machine. It combines the speed and comfort of a rider with the space-saving convenience of a walk-behind.

Despite its compact size, the TASKI XP-M IntelliSweep™ machine offers unique technologies including the integrated pre-sweeping unit and with a big 113 l fresh water tank the machine offers an ideal combination of agility, power and performance.

The right fit for various sectors and applications

The new TASKI XP-M IntelliSweep™ is the right choice for anywhere where high productivity is the goal without compromising cleaning results. TASKI swingo XP-M fitted with TASKI IntelliSweep™'s integrated pre-sweeping function will massively streamline cleaning process in retail, industry, logistics and any public space where pre-sweeping is critical.

TASKI® swingo XP-M IntelliSweep™

A major break through in cleaning productivity and efficiency.
A machine which sweeps as it scrubs

Technical data			
Theoretical Performance	4500 m ² /h	Machine weight net	222 kg
Working with	75 cm	Machine weight Ready to use (without operator)	458 kg
Offset IntelliSweep™	20 cm	Dimensions (L x W x H)	161 x 95 x 130 cm
Squeegee with	95 cm	Door pass through width (w/o squeegee)	80 cm
Solution tank-bag system	113 l	Brush System	45 x 15 cm
Recovery tank	140 l	Speed of main brushes	550 rpm
Rated Voltage	24 V	Brush pressure min-max	0.25 - 0.5 N/cm ²
Nominal consumption	1093 W	Cleaning speed	6 km/h
Battery capacity max.	180 Ah/C5	Sound level	69 dB(A)
Battery run time	3 h 30 h	Approvals/ Protection class	GS, CB / II
