

Degragerm 24™ Shield

powered by APT technology

Break the chain of surface recontamination

You can't be everywhere at once, but the surface can be protected every time it is touched. With **Degragerm 24™ Shield** you get continuously active disinfection, meaning you can protect your customers, staff and your facility with confidence and control.

Degragerm 24™ Shield is a ready-to-use cleaning disinfectant which delivers 24 hours residual antimicrobial protection for non-food contact hard surfaces.

APT™ - Advanced Polymer Technology uses quats in a specific combination with a patented polymer and surfactant system to achieve residual surface sanitization effect. This especially applies to sites with small surfaces that are **frequently touched** by many people such as offices, educational facilities, hotels, public restrooms, etc.

Disinfects in 5 minutes

Including enveloped virus

BSI PAS 2424 Compliant

High touched surfaces

Surface safety profile

Degragerm 24™ Shield

powered by APT technology

Features

- Disinfects in 5 minutes
- Fast-kill of more than 99.99% of germs including enveloped virus as Coronaviruses
- Compliant with the most stringent testing standards, including BSI PAS 2424 Residual Antimicrobial Efficacy Test (bacteria and enveloped viruses). The disinfectant remains effective for up to 24 hours
- Positive user and surface safety profile

Benefits

- Once dry it protects surfaces from bacteria and viruses for up to 24 hours
- Fast-kill of most common pathogens of concern across application areas
- The disinfectant remains effective for up to 24 hours even when the surface is repeatedly contaminated with soil and eroded by repeated contact
- Promotes sustainable cleaning, allowing the use of fewer products and less time spent on disinfecting frequently touched surfaces
- Broad efficacy provides the highest levels of protection.
- Easy to apply, ready to use
- Enhance guest reassurance due to long-lasting protection

Tests references

Efficacy proven by compliance with European norms EN 1276, EN 13697, EN 16777 (MVA), EN 14476 (MVA), EN 1650, EN 13697 and PAS2424 (bacteria and viruses)

Product	Product Code	Pack Size
Degragerm 24h Shield RTU	101105513	6x750mL

Use biocides safely. Always read the label and product information before use.

Applications

Compatible with most common surfaces, including high touch surfaces e.g. doorknobs, light switches, countertops, handles, etc.)

1 Spray sufficient product on a paper towel / cloth.*

2 Wipe the surface with the paper towel / cloth.

3 Allow 5 minute contact time. Leave to air dry.

4 Provides 24 hour residual efficacy against bacteria and enveloped viruses.**

* Reapply Degragerm 24 Shield each time the surface is cleaned with a cleaning product

** See product label for list of specific organisms against which antimicrobial performance has been validated
