ENVIRONMENTAL, HEALTH & SAFETY POLICY STATEMENT

Our Vision and Mission

Diversey's vision is a healthy and safe world where people are free to live their lives. Our mission in achieving this, is to protect and care for people every day by pioneering future-focused cleaning and hygiene technologies.

Our Purpose and Commitment

Diversey's purpose is to protect and care for people every day. Diversey has been, and always will be, a pioneer and facilitator for life. This purpose carries through into the integration of our environmental, health and safety principles in all aspects of our business – including our products, service to our customers, our operations, and our supply chain.

Our Guiding Principles

- Meet or exceed applicable EHS regulations
- Provide training programs for employees to perform their jobs safely in an environmentally responsible manner
- Design and develop products that enable our customers to accomplish their environmental, health and safety goals by reducing waste, increasing operational efficiency, protecting human health, and improving food safety and security
- Conserve raw materials, water and energy in our operations through source reduction, process improvement, use of alternative materials and waste recovery
- Communicate our policy to our employees, customers, suppliers, associates, and the local communities in which we operate
- Establish targets and report publicly on the progress of improving our environmental, health and safety performance
